

Date 12-06-2020

To,  
The Principal,

Subject - Invitation to participate in Saevus Eco Achievers Olympiad 2020

Respected Sir/Madam,

As you know the pandemic has confined us to our homes and taught us important life lessons. One of them is the need for respecting nature.

Hence, even though we have many challenges ahead we are going ahead with our Eco Achievers programmes as we wish that our children grow up to understand nature and their environment.

This year we bring the Olympiad and Quiz in online formats. While the quiz will be launched in September, we are launching the Olympiad on 15th June.

Children can take the exam from the comfort of their homes. The format of the exam is explained in mail in detail. This is a fully proctored examination where the children will be video recorded while taking the exam to avoid any unfair practices. The fee for this year's Olympiad is just Rs.100 and that includes the reference material as an e-book.

Kindly share the details that we will send you with all your parents and children through your intranet, email, Facebook or any other communication portal you have with them.

Kindly urge each one of them to take the test to show their solidarity with nature even as we keep getting battered by pandemics, cyclones and natural disasters. Thank you and look forward to your wholehearted cooperation and support.

Thanks & regards,

For Saevus Eco Achievers Olympiad
